

Addition KS2

KS1	Pupils should practise addition to 20 and within to become increasingly fluent. They should use the facts they know to derive others, e.g using $7 + 3 = 10$ to find $17 + 3 = 20$, $70 + 30 = 100$ They should use concrete objects and practical apparatus, such as bead strings and number lines to explore additions including missing numbers. Use pictorial representations such as bar models and whole part diagrams to show additive relationships. 100 squares could be used to explore patterns in calculations such as $74 + 11$, $77 + 9$ encouraging children to think about ‘What do you notice?’ where partitioning or adjusting is used. Pupils should learn to check their calculations, by using the inverse. They should continue to see addition as both combining groups and counting on. They should use Dienes to model partitioning into tens and ones* and learn to rearrange numbers in different ways e.g. $23 = 20 + 3 = 10 + 13$. Show understanding that adding zero leaves a number unchanged.					
Year	3			4		
Layers of vocabulary  Appendix 1a Beck’s Tiers of Vocabulary Appendix 1b: Vocabulary book	Basic to subject specific (Beck’s Tiers): +, add, addition, more, plus make, sum, total altogether score double, near double one more, two more... ten more... one hundred more how many more to make...? how many more is... than...? how much more is...? Instructional vocabulary: explain your method explain how you got your answer give an example of... show how you... show your working			Basic to subject specific (Beck’s Tiers): add, addition, more, plus, increase sum, total, altogether score double, near double how many more to make...? Instructional vocabulary: calculate, work out, solve investigate, question answer check		
NC 2014	Add and subtract numbers with up to 3 digits, using formal written methods of columnar addition and subtraction.			Add and subtract numbers with up to 4 digits using the formal written method of columnar addition and subtraction where appropriate. Solve addition and subtraction two-step problems in contexts, deciding which operations and methods to use and why.		
Developing Conceptual/ Procedural Understanding	Near doubles $13+14 =$ Double $13= 26$ $26+1 =27$ or Double $14 =28$ $28-1=27$ Using known facts	Start with least significant digit $\begin{array}{r} 67 \\ + 24 \\ \hline 91 \end{array}$ $11 (7+4)$ $+ 80 (60+20)$ $\underline{\quad}$ 91	Columnar addition $\begin{array}{r} 625 \\ + 48 \\ \hline 673 \\ 1 \end{array}$ Teach the carried digit.	Using known facts $40 + 80 = 120$ using $4 + 8 = 12$ So $400 + 800 = 1200$ and $4000+8000=12,000$	Columnar addition $\begin{array}{r} 587 \\ + 475 \\ \hline 1062 \\ 11 \end{array}$ “7 add 5 equals 12. That’s 2 units and 1 ten to carry over. 80 add 70 equals	Columnar addition (decimals) in contexts such as money and measurement $\begin{array}{r} 12.45 \\ 7.36 \\ + 24.50 \\ \hline 44.31 \end{array}$

Addition KS2

	<p>$40 + 80 = 120$ using $4 + 8 = 12$ So $400 + 800 = 1200$</p> <p>Remodelling strategy $243 + 198$ $241 + 200 = 441$</p> <p>Place value materials to represent 3 digit numbers Base 10 and then place value counters.</p>  	<p>"7 add 4 equals 11 and 60 add 20 equals 80. $1 + 0 = 1$ and $1 \text{ ten} + 8 \text{ tens} = 9 \text{ tens}$"</p>  $\begin{array}{r} 625 \\ + 48 \\ \hline 13 \text{ (5+8)} \\ 60 \text{ (20 + 40)} \\ + 600 \text{ (600 + 0)} \\ \hline 673 \end{array}$ <p>All language in the context of the place value and the mental addition of the totals to be done in any order.</p> <p>Teaching point: no more than 9 in any given column following regrouping.</p>	<p>Representing problems There are 334 children at Springfield School and 75 at Oak Nursery. How many children are there altogether?</p>	<p>Remodelling strategy $3548 + 1998$ $3546 + 2000 = 5546$</p> <p>Place value materials to represent calculations</p>	<p>150 and the 1 ten to carry makes 160. That's 6 tens and 100 to carry over. 500 add 400 equals 900 and the 1 hundred to carry makes 1000"</p> $\begin{array}{r} 7648 \\ + 1486 \\ \hline 14 \text{ (8+6)} \\ 120 \text{ (40+80)} \\ 1000 \text{ (600+400)} \\ + 8000 \text{ (7000+1000)} \\ \hline 9134 \end{array}$ $\begin{array}{r} 7648 \\ + 1486 \\ \hline 9134 \\ 111 \end{array}$	<p>Representing problems There are 259 more boys than girls in Lucy's school. If there are 759 girls, how many pupils are there altogether?</p> 
Known facts	Derive and use addition and subtraction facts to 100, e.g. $33 + 67 = 100$.			Derive and use addition and subtraction facts (for multiples of 10) to 1000, e.g. $330 + 670 = 1000$.		
Essential knowledge	Add single digit bridging through boundaries	Add multiples of 10,100	Fluency of 2 digit + 2 digit		Add multiples of 10, 100 and 1000	
	Partition second number to add	Pairs of 100 (complements of 100)	Partition second number to add		Decimal pairs of 10 and 1	
	Use near doubles to add	Add near multiples of 10 and 100 by rounding and adjusting	Use near doubles to add		Adjust both numbers before adding	
	Partition and recombine		Add near multiples		Partition and recombine
