Known facts	Derive and use addition and subtraction facts to 100, e.g. $33 + 67 = 100$.		Derive and use addition and subtraction facts (for multiples of 10) to 1000, e.g. $330 + 670 = 1000$.	
Essential knowledge	Subtract single digit bridging through boundaries	Subtract multiples of 10,100	Fluency of 2 digit - 2 digit	Subtract multiples of 10, 100 and 1000
	Partition second number to subtract	Pairs of 100 (complements of 100)	Partition second number to subtract	Decimal subtraction from 10 or 1
	Difference between	Subtract near multiples of 10 and 100 by rounding and adjusting	Difference between	Subtract near multiples by rounding and adjusting
	Partition and recombine			

Year	5	6
<p>Layers of vocabulary</p>  <p>Appendix 2a Beck's Tiers of</p>	<p>Basic to subject specific (Beck's Tiers): subtract, subtraction, take (away), minus, leave, how many are left/left over? ten less... one hundred less how many fewer is... than...? how much less is...? difference between half, halve = equals, sign, is the same as tens boundary, hundreds boundary, inverse, units boundary, tenths boundary</p>	<p>Basic to subject specific (Beck's Tiers): subtract, subtraction, take (away), minus, decrease leave, how many are left/left over? difference between half, halve how many more/fewer is... than...? how much more/less is...? equals, sign, is the same as tens boundary, hundreds boundary, units boundary, tenths boundary, inverse</p> <p>Instructional vocabulary:</p>
